## || EXPERIENCE

### Software Developer

Freelance 2021 - Preasent

Software Engineer with experience as a mobile developer for years, both as a native android or react native. I worked as a backend-dev using PHP, nodeJS, Python. I used AWS tech stack to create scalable systems. Moreover, I have quite experience with webrtc for game cloud development.

WebRtc Pipeline: implementing a webrtc broadcasting server, signaling server, and android client.

redesign and clean-up: update android game store design and code clean-up and add the webrtc streaming.

### Detection of Autism in Twitter

Ferdowsi University lab/2019 2020

— Topic Modeling with LDA (latent Dirichlet allocation)

— Classification using CNN and Random Forest

### Realtime text to speech engine

Final Bachelorbproject/2019 2020

—A real-time text to speech engine using Tacotron 2

—Used the text transformation to make synthesis faster for Persian Language

### Mobile Developer

Baghalimoon/2017 2018

Cross-platform React Native Mobile Development of an Online Grocery Store used by thousands of users..
